- New Data Model Feed Back

a. The Creator Student can designate a list of 'Collaborators' who can edit the Project as well as post Updates
b. The Alum is associated with the Project through Donations

- Concept of Collaborators and Advisor
  - Does advisor or collaborator needs to be in the system?
    - If so, need to make a new model called advisor

- What happens if the student graduates? Right now we have students making one-time choice to convert their account to an Alumni account. We are seeking other options.

- Feedback about our UI as shown in the wireframes?

- Personalizing the dashboard.
